

## Design and Technology

Design Technology (DT), at Youlgrave, All Saints' C of E (VA) Primary School, helps children to become 'problem solvers' through practical tasks, using creativity and imagination. Children take every day or familiar objects and investigate how they actually work; and who they are really designed for.

### **Curriculum**

Working with a variety of materials and tools; and through skills they learn: our children design, make and evaluate a range of products through a cross-curricular approach.

### **Every child matters**

DT is a subject all children can enjoy individually or as part of a team; and it gives our children the opportunity to become innovators!
